M.DCC.LXIII.

BRITISH MUSEUM

PREFACE.

WITHOUT expatiating on the advantages that ariſe from the knowledge of the *French* language, and its great utility in every branch of Literature and Commerce, I humbly preſume to offer to the public a New Dictionary of that language, on a plan hitherto unattempted; and as all advances towards rendering ſcience eaſy and agreeable, claim the Indulgence and Patronage of the candid and judicious, I flatter myſelf, from the extenſive uſefulneſs of this deſign, to obtain ſuch a ſhare of the public favour as the execution of the plan ſhall merit.

To convey to the readers a clear idea of this work, it muſt be previouſly conſidered as entirely calculated for the more ready finding the ſignification of words, and for relieving learners from the tedious and irkſome taſk of expounding long ſentences for their divers acceptations, or referring to various places, for what they have exhibited to them at one view; which conciſe method will contribute to render the pupil a much greater proficient, than he could otherwiſe expect to be: not to mention the extraordinary benefit that muſt, by

by uſing it, accrue to thoſe who have neither leiſure nor inclination, nor the expending a conſiderable ſum, for the attaining a Language which this little manual, and my *Engliſh* and *French* EXERCISES will as compleatly inſtruct them in, and anſwer all their purpoſes.

I hope it will be likewiſe conſidered, that its compendiouſneſs and perſpicuity muſt be no ſmall recommendation to thoſe who have the natives of this kingdom under their care; as the memories of their pupils not being crouded, their ſpirits diſſipated, or their attention wearied, by a redundancy of words, and ſuperfluity of examples, moſtly as difficult to be underſtood as the terms they are intended to explain, they will the eaſier retain in their tender minds the leſſons they receive; and obviate the diſguſts that frequently ariſe from the load too often injudiciouſly impoſed upon them.

As to the execution of this plan, it muſt be remarked, that I have ſuppreſſed the moſt obſolete, and all obſcene words, conſcious that no one will ever object againſt their not being admitted in a book deſigned for the aſſiſtance of youth in the ſtudy of polite learning. Many ſingle words being uſed to denote various ideas, to prevent beginners from chuſing ſuch *French* words in tranſlating, as are no ways adequate to expreſs the meaning of the *Engliſh*, I have not collected their different ſignifications together, as they generally are in other FRENCH DICTIONARIES, but included an explanation of their various acceptations between a parentheſis, marked thus ( ), that the conſulter's eye may

may be the more readily directed to the ſenſe he wants.

THE letter prefixed to the *Engliſh* or *French* word, denotes the part of Speech to which it reſpectively belongs; that ſet next to the *French* word declares its Gender, which, though abſolutely neceſſary to be known, to ſpeak or write our language correctly, hath been totally omitted in the *Engliſh* part of other DICTIONARIES.

BESIDES theſe advantages peculiar to this Dictionary, the public will find ſeveral uſeful words, which on account of the alterations and additions made of late years in the *Engliſh* and *French* languages, could not be known to former LEXICOGRAPHERS; and as their Orthography muſt conſequently be ill adapted to the preſent times, I have taken particular care not to introduce any word that has not the ſanction of our beſt and politeſt authors.

IN a word, that nothing might be wanting in this Dictionary, which I thought could contribute to the eaſe and advantage of learners, the Conjugation of Verbs are denoted by the figures 1, 2, 3, 4, and when they are irregular it is ſpecified; accents are alſo very accurately laid on both *Engliſh* and *French* words, in order to facilitate the pronunciation of them. And if, upon the whole, this work anſwers the ſincerity of my views, by proving beneficial to the youth of this kingdom, I ſhall eſteem the pains and time employed in this channel of inſtruction, not only well beſtowed, but very amply rewarded.

EXPLANATION

Of the Abbreviations uſed in this Dictionary

a	ſtands for	*adjective.*
ar		*article.*
c.		common.
Ex.		Example.
f.		feminine.
(ir.)		irregular.
m.		maſculine.
p		*particle.*
pl.		plural.
pr		*pronoun.*
ſ		*ſubſtantive.*
t.		term.
v		*verb.*
V.		Vide *or* See.

* Denotes that the word is uſed in a figurative ſenſe.

☞ Points (.) dividing both *Engliſh* and *French* verbs, indicate where the terminations of the *Participles* take place.

EXAMPLE:

to Abdicat.e, (*to* reſign) ing, ed.
abdiqu.er, (1) *ant, é.*

is ſet down ſo for brevity ſake; but it is to be read thus,

to Abdicate, abdicating, abdicated. *abdiquer, abdiquant, abdiqué.*

When the *Engliſh* verb is not divided, then the terminations muſt be added to the *Infinitive*, to form the Participles, as in,

to Abhór, (*to* deteſt) ring, red.
abhorr.er (1) *ant, é.*

READ,

to Abhór, abhorring, abhorred. *abhorrer, abhorrant, abhorré.*

N. B. This is likewiſe to be underſtood of ſuch Subſtantives and Adjectives which, for the diſtinction of their Genders, are either divided by Points, or take additional terminations.

A NEW DICTIONARY, ENGLISH AND FRENCH.

E.

E is the fifth letter of the French alphabet, and the ſecond of the vowels.

E has four ſeveral ſounds, all comprehended in this word, *empêchée*, or in this, *enfermée.*

I. The firſt E, before m and n, ſounds, generally, like an a, in the French,

II. The ſecond E is called open, and ſounds like the Engliſh a, in theſe words, *face, grace.*

III. The third is called Maſculine, becauſe it is pronounced clearly and ſtrongly: it ſounds like ea, in the Engliſh words *beaſt, dream,* and is generally marked with an acute.

IV. The fourth E is called Feminine, or Mute, becauſe it is but weakly pronounced; as in theſe words, *love, grove.*

E, among the ancients, was a numeral letter that ſtood for 250, according to this verſe.

E quoque ducentos & quinquaginta tenebit.

pre. Each (every) *chaque* c.

ſ. Zódiack (term of Aſtron.) *zodiaque* m.
ſ. Zone (term of Aſtron.) *zone* f.
ſ. Zone (girdle) *ceinture* f.

FINIS.

ADVERTISEMENT.

THE plan of this book, in its infant ſtate, though intended only as an extenſive Vocabulary, even then, met with the approbation of a great number of gentlemen, who are the beſt judges of both languages, eſpecially thoſe who have the important charge of the education of youth: — Therefore to them in particular the author hopes this performance will be the more acceptable, when they find that he has greatly extended and improved the firſt deſign.

Directions to the BINDER.

IN the *Engliſh* Part there are two Letter I; obſerve that the laſt Word in the laſt Page of the ſecond I is detractor. And S ſ is put for S, which goes on with double Signatures to the End of Letter O. P begins with *A, and goes on to *L, which ends Letter T. U begins with Letter (a) and goes on to the End.

In the *French* Part, there are two Letter D; the firſt of which Signatures ends Letter A and begins B; the ketch Word of the ſecond D is Boutoir.

DICTIONNAIRE
FRANÇOIS & ANGLOIS,

CONTENANT

La signification des môts, avec les sens différens dans les quels ils peuvent s'entendre, et plusieurs expressions choisies et particuliéres à l'une et l'autre Langue.

EXTRAIT DES MEILLEURS AUTEURS

Et mis dans un ordre très facile et très méthodique.

Par Mr. PORNY.

Ut silvæ foliis pronos mutantur in annos,
Prima cadunt: ita verborum vetus interit ætas;
Et juvenum ritu florent modo nata vigent que.

HORAT.

A *LONDRES*,

un ruſtre, *a chuff.*
ſ Rutoir, *m.* (lieu où l'on fait rouir le chanvre) *pool, pond.*

S *is called* eſs *in French as* S *in Engliſh, but it has two different articulations before a vowel, the one hard and hiſſing, as in the Engliſh word* ſo, *and the other ſoft, like* z. *In the beginning and middle of words, after a conſonant, it is ſounded hard except in* Alſace, balſamique, *and in the inſeparable particle* trans, *as* tranſaction. *At the end of words before a vowel, and between two vowels, it is pronounced like* z. *This letter is not ſounded in* eſt, (is) iſle, Baſle, ſchiſme, *and its derivatives.*
